

Kaleeyah Carson – St. Francis Seraph School – Seton High School

I am part of a large family of nine. I have seven siblings, four who are younger than me. My mother is a single parent after my father died last year. My mom works a lot and I want to ease her responsibilities at home. I help my younger brothers and sisters with their homework, making sure it's done properly and tutoring them if they need help. I also help with cleaning and preparing meals for our family. I also positively affect others at St. Francis Seraph School where I have attended since kindergarten. St. Francis Seraph encourages you to give of yourself. I am a preschool buddy and I help the preschoolers with different things around school. I help walk the preschoolers to church every Friday and sit with them while at church modeling good behavior. I also help out around school whenever necessary as part of the Fresh Fruit and Vegetable Program and Recycling Program.

The Aubrey Rose Scholarship would help ease my mother's financial burden for high school. I want to attend Seton High School because I feel I can continue positively affecting others around me in a school setting that promotes giving of yourself just like Jesus did. I care about others and want to continue to do this. My mother works hard as a single parent raising eight

students; all of us attend private Catholic schools. My older brother is a senior at Elder High School and my two sisters are also at Seton High School and this scholarship would help us. Thank you.
